FUELING AMERICA

	Test Weight	Discount		% Moisture	Discount	
<b>Test Weight:</b> Test weight (TW) reflects the volume of starch needed to produce an equivalent amount of ethanol. Lower TW requires more corn to produce equivalent amount of Ethanol. Base TW is 54 (no discount).	54 +	\$ -	<b>Moisture:</b> Corn moisture affects ability of hammer mills to effectively breakup corn prior to processing, reducing efficiency.	0 - 15.00	\$ -
